

# C

SWE110

Lesson 8

Prof. Zachi Baharav

[zbaharav@cogswell.edu](mailto:zbaharav@cogswell.edu)

# Lesson 8

- In previous lesson:
  - Arrays
- **In this lesson:**
  - More Arrays
    - Searching, sorting.
    - 2D arrays.
- Next Lesson:
  - Two dimensional array
- Lab

# For next lesson

- Read :
  - 6.6 Sorting arrays (Dietel, page 216)
  - 6.8 Searching arrays (Dietel, page 223)
  
  - And, read (from your own resource, or from Dietel 7<sup>th</sup> edition): Why should you use scanf\_s() when possible rather than scanf(), and how it relates to arrays in C ?

Time to program!!

...
